

Landscaping

Grade 10+

1 Credit

based on *Landscaping Design, Installation, and Management*, 2nd Edition © 2023

This course introduces students to various aspects of landscaping. Students interested in making beautiful outdoor spaces can learn principles of design and then begin learning more specifically about plants and materials used in outdoor landscaping projects, as well as water features and hardscapes. The course also covers details related to starting and running a landscaping business.
